

13 SEER PERFORMANCE

GSX13 ENERGY-EFFICIENT AIR CONDITIONER

ENERGY EFFICIENCY

As the owner of an efficient **McQuay**® brand GSX13 R-410A Air Conditioner, you have made one of the best purchasing decisions possible in the HVAC marketplace. At Goodman, we strive to build heating and air-conditioning equipment that offers high performance, energy efficiency, durability, and an environment-complementing design – all at a price that will have you saying “Thank goodness.”

In particular, your **McQuay** brand GSX13 Air Conditioner will provide you with reliable cooling at money-saving energy efficiency levels as compared to lower SEER air conditioner units.

COMFORT. SAVINGS. PERFORMANCE.

ENJOY THE COMFORT

You can count on your **McQuay** brand GSX13 Air Conditioner to keep you cool on even the hottest summer days. Your **McQuay** brand air conditioner starts with an energy-efficient compressor, which operates in tandem with our high-efficiency coil. The coil is made of rifled refrigeration-grade copper tubing and corrugated aluminum fins in a design that maximizes surface area. These high-quality components together cool your home effectively.

McQuay's SMARTCOIL 5mm tube condensing coil design optimizes the heat transfer ability of R-410A refrigerant compared to standard 3/8" copper tubing.

SMARTCOIL™ TECHNOLOGY SMALLER IS SMARTER

Long ago the HVAC industry determined that the combination of copper tubing and aluminum fins provided the most efficient transfer of thermal heat available. Today, the **McQuay** brand has improved upon this industry standard by making the condenser coil copper tubing smaller and smarter. The result is an air conditioner unit that can offer high-efficiency, use less refrigerant, and deliver money-saving and energy-saving comfort to you for years and years.

QUIET YOU CAN COUNT ON

We know that the last thing you want to hear at night is a noisy air conditioner starting up. So, we build our **McQuay** brand GSX13 Air Conditioners with sound-dampening features that help ensure that your cooling system doesn't interfere with a good night's sleep. We rely on a quiet condenser fan system – a three-bladed fan and a unique louvered sound-control top – to reduce fan-related noise. Your **McQuay** brand GSX13 Air Conditioner will keep your home cool and comfortable, year after year.

R-410A REFRIGERANT

Compared to lower SEER, R-22 refrigerant units, your new **McQuay** brand GSX13 Air Conditioner system will not only provide you with money-saving cooling performance for many years, but it also features R-410A refrigerant. This refrigerant does not contain chlorine.

Introduced in 1995, R-410A refrigerant has helped increase the durability and reliability of air conditioner compressors.

IMPRESSIVE FEATURES AND BENEFITS:

McQuay® BRAND GSX13

R-410A ENERGY-EFFICIENT AIR CONDITIONER

- Chlorine-free R-410A refrigerant
- An energy-efficient compressor
- A factory-installed in-line filter drier
- Copper tube/aluminum fin coil
- A louvered cabinet made of heavy-gauge galvanized steel that protects the coil
- Brass liquid and suction line service valves
- A high-efficiency condenser coil made of corrugated aluminum fins and rifled refrigeration-grade copper tubing
- Air Conditioning, Heating, and Refrigeration Institute (AHRI) certified
